2020 IEEE the 11th Sensor Array and Multichannel Signal Processing Workshop (SAM)

iii Jun. 8 ~ 11, 2020 / ⊕ Hangzhou, China / △ Submission deadline: Dec. 15, 2019

ABOUT CONFERENCE

The SAM workshop is an important IEEE Signal Processing Society event dedicated to sensor array and multichannel signal processing with about 200 participants.

The organizing committee invites the international community to contribute with state-of-the-art developments in the field.

SAM 2020 will feature plenary talks by leading researchers in the field as well as poster and oral sessions with presentations by the participants.

This workshop will be held on June 8~11, 2020 at Hangzhou Jinxi Villa.

SPONSOR

CALL FOR PAPERS

Full-length papers with 4 pages of content and 1 extra page only for references should be electronically submitted. Authors are invited to submit contributions related (but not limited) to the following topics:

- array processing for communications
- artificial intelligence in array processing
- blind source separation and channel identification
- distributed and adaptive signal processing
- multiuser MIMO and massive MIMO

- multi-sensor processing for smart grid and energy
- performance evaluations with experimental data
- synthetic aperture techniques
- space-time adaptive processing
- tensor signal processing

To see all of requirements, please visit the following link: http://www.zjuisee.zju.edu.cn/sam2020/CallforPapers/

⚠ NOTICE OF SUBMISSION

- Please visit the following link to download the template: http://www.zjuisee.zju.edu.cn/sam2020/static/Special%20Session%20Proposal%20-%20SAM%202020.doc
- ① Online submission link: http://www.zjuisee.zju.edu.cn/sam2020/PaperSubmission/
- 1 Submission deadline: December 15, 2019.
